

Southside Neighborhood: 100 Years of Recipes and Stories provides a glimpse into a neighborhood almost as old as the City. The area is bordered by Arizona Avenue and Hidalgo Street to the west and east, and Frye and Pecos Roads to the north and south. Explore the history of the *Southside* through the eyes of those who know it best: the families that lived and worked in the neighborhood. Learn how they built a community, established businesses and churches, and shared one thing that binds people from all walks of life together: food. There is a recipe for everyone, from pound cakes to gumbo to Lent favorite, *capirotada*. This book is funded in part by the Arizona Humanities Council.
