

The Chandler Museum hosts the Educator Advisory Committee (EAC) quarterly throughout the school year. The Committee is made of local teachers, school librarians, curriculum specialists, and school administrators. The EAC brainstorms, creates, revises, and approves museum resources for local schools including field trip curriculum, lesson plans and in-class curriculum supplements, and outreach trunks. Committee members also serve as advocates for the museum at their school sites. If you are interested in participating with the group, please call the Curator of Education at 480.782.2717.
